Safety Induction information to Vietnam

Firstly and warm welcome

The usual emergency fire alarms, exits, muster points at front gate outside near main road or when you go offshore make your self familiar with vessels safety procedures and attend the safety introduction.

YOUR SAFETY IS YOUR RESPONSIBILITY and the responsibility of your work mates. Keep together and look after each other.

SOS and accidents

1. 24HR EMERGENCY CONTROL CENTER HCMC +84838298520

2. EMERGENCY SOS CLINIC VUNG TAU 0643858776

Do not stop for any road accident you see, or you may be put to blame just because you are expatriate.

Passports; Don't give to anyone but hotel or company person

Emergency numbers put into mobile phone i.e. SOS +84838298520

Capt. Jody +84905166017. Etc

Ice and water; NEVER drink tap water, ice is up to individual but usually ok in good restaurants. Drink bottled water where possible or cool drink.

Drink alcohol in MODERATION

Not to take motor bikes at anytime, especially girls trying to pick you up after drinking late at a bar.

If you wish to take a bar girl home; Do not take to staff house at any time night or day. Ask her to take you too a short time hotel and make sure you are clear with the price. Wear a condom when having sex, Aids and Hepatitis B and C are prevalent in Vietnam.

Common sense with theft and personal security; be careful, only take the cash you will need for that night, NOT your wallet and cards.

Taxi at night; your not poor, so please use a taxi for your own personal safety, especially after you have been drinking.

What you need to know about customs and general information about crossing the roads.

LOOK BOTH WAYS **TWICE** BEFORE CROSSING THE ROAD! People ride motorbikes both ways one the same side of the road, they are not educated, YOU ARE!

Walk slowly across the road as motorbikes will go around you, or stop still untill they pass. **NEVER** walk backwards or run.!

Also introduce your self to Medical staff and find medical room and first aid kits.

PPE on site- 100% when in work site, this means hard hats, safety glasses and safety steel cap boots or shoes. Hearing protection if needed

Working at height; wear safety harness if working unprotected by railing above 2m

Safe walk ways; keep to them, they should be marked, or ask HSE officer to show you them

Toilets, please find and use and check for emergency eye wash stations, be warned ; instant dismissal for urinating in places other than toilets.

Take worm tablets every 3 mths and try avoid uncooked or partly cooked meat of any kind ,especially pork ,beef or even dog.

Do not eat Civet cat. If you get invited to eat with Vietnamese and you don't know what your eating ??? ASK

Put your hand over your mouth when using tooth pick is very polite.

Feel free to pick your nose in public, its socially accepted.

Safety on our Car/ Bus; if you think the driver is not being safe or driving with due care, tell him to slow down and advise HSE dept.

Escape route on vessels/ buildings/ inside workshops; make sure you know them!

Safety at sea ; wear a life jacket if you cant swim and a life line if working in high risk area of possibility of falling or being washed overboard.

NEVER WORK ALONE AT ANY TIME UNDER ANY CIRCUMSTANCE!

WHEN IN DOUBT- ASK THE QUESTION!

Its better to be dumb and alive than "smart" and dead.

We hope you have a safe and enjoyable stay with us
Thank you for your valuable time.

But above all

THINK SAFE & BE SAFE
